Resume

PROFILE

Young graduate with a computer science degree (bac+3) motivated to continue my studies in a master's degree or an engineering program (bac+5). With a confident and determined mindset, I am oriented towards the rapid acquisition of new skills and continuous improvement. My main objective is to deepen my theoretical and practical knowledge while developing my interpersonal skills in a stimulating academic and professional environment. I am convinced that this pursuit of studies will constitute an essential lever for my professional growth.

Owner of a driver licence plus a vehicle.
